Target Market:

With the rapid development in the country, there is tremendous growth in the paper packaging segment aided by gradual ban of plastic bags / plastic packaging by various municipal corporations owing to environmental concerns of bio degradability. Moreover the raising standards of hygiene and the substantial growth in fast food and beverages segment has led to a push in the usage of disposable paper cups. Venkraft targets this growing paper packaging segment and has been catching up to its demands through frequent increase in its capacity and constant innovation in its products.
